Innovate or perish

Higher education, especially, engineering and technology education, plays a critical role in developing and sustaining growth and in society's well-being. It all starts with a well prepared human capital. In order to better address their country's and region's needs institutions need to look into the future and engage in a never ending process of innovation.

InnovaHiEd

Helping catalyze innovation
in higher education

Who We Are

A world-class team of experts with extensive academic and industry experience, offering services to help higher education leaders in transforming their institutions to better respond to their stakeholders' needs and the socioeconomic development challenges they face.

We offer mentoring & consulting in

Strategic Planning

Competency-based Curriculum Design

Program and Learning Outcomes Assessment

Learning & Teaching Environments

Industry-University Partnerships

Planning for the Research Endeavor

Technology for Learning

ABET Accreditation

and many others

What We Do

Our world-class award winning team can help your institution 1) assess **your needs**, 2) together with you, help develop **your plans** to address those needs, and 3) accompany you through **your implementation** phases, through:

- High value meetings/brainstorming sessions
- Focused seminars and workshops
- Individual and group consulting/mentoring
- Efficacious and agile follow-through via email and conference calls

“In the spirit of honoring traditions, universities hang on to past practices imperiling their future”

~Clayton Christensen
Harvard University

Principal

With more than 35 years of academic and industrial experience, Lueny Morell, is co-founder of NEU, a new platform to teach engineering in Silicon Valley, California, co-founder and past president of IFEES, GEDC and SPEED. An IEEE Senior Member, ASEE Fellow and ABET Program Evaluator, she has received several awards for her work, including the US NAE Gordon Prize for her innovations in engineering education. Lueny is passionate about engineering education and innovation.

Why We Do This

InnovaHiEd is a group of individuals who have dedicated their lives to improving higher education, especially, engineering education, many of whom are world known educators with prestigious awards and recognitions. They have transformed themselves, their institutions and higher education – and are making themselves available to help others through similar transformations.
